

Trust. Transparency. Truzo.

**The only end-to-end Drug Discount Management Platform
purpose-built to navigate program intersection**

Truzo simplifies the complexities of drug discount programs by connecting manufacturers, covered entities, and payers in a single platform. By providing a holistic view and actionable insights, Truzo prevents duplicate discounts at the source, minimizing revenue leakage.

BUILT FOR AGILITY

As drug discount programs evolve, so does Truzo. Whether adapting to new regulations or emerging models, Truzo is agile and ready to help you stay ahead without adding complexity.

Truzo supports all drug discount programs, including the Medicaid Drug Rebate Program, 340B, Max Fair Price, and Commercial.

MORE THAN JUST TECHNOLOGY

- 01 Data**
Aggregates industry, provider, and payer data for informed decision-making
- 02 Technology**
Enterprise-grade security and scalable infrastructure
- 03 Services**
Legal, regulatory, and subject matter expert support
- 04 Networks**
Strong partnerships with covered entities and states

TRUZO DISCOUNT MONITORING

Discount monitoring proactively identifies non-compliance, resolves disputes, and pinpoints risk across programs.

Key Capabilities:

- Streamlined data ingestion and harmonization of industry and claims data
- Advanced cross-program duplicate discount detection
- Configurable validations aligned with manufacturer policies
- Wholesaler analytics to uncover purchase anomalies and guide investigations
- Robust dispute workflow with data-driven analytics

TRUZO PAYMENT FACILITATION

Payment Facilitation enables manufacturers and covered entities to manage drug discount program payments directly and fully transparently.

Key Capabilities:

- Data ingestion: Scalable claims data ingestion for timely, auditable insights
- Eligibility & calculation: Algorithms determine the appropriate program, discount recipient, and discount amount based on claims-data
- Payment effectuation: Secure, direct payments from manufacturers to covered entities
- Dispute workflow: Streamlined dispute resolution workflow with analytics tracking progress
